TUITION SCHOLARSHIP PROGRAM SUPPORTED BY:

OVERVIEW

Over the last five years we have witnessed the proliferation of bundled payments from small pilot experiments to scaled payment programs across multiple conditions. Medicare now has three active programs including the large-scale Bundled Payments for Care Improvement (BPCI), the Comprehensive Care for Joint Replacement Program (CJR) and the Oncology Care Model (OCM). Similar to the fed's move to value-based payment models such as bundled payments, statewide programs involving Medicaid and public employee health benefits plans are also moving large volumes of public sector health care dollars away from fee for service. Further, private sector health plans are increasing the scope and breadth of their bundled payment programs. Finally, providers are turning to employers for direct contracting arrangements.

The 2016 Bundled Payment Summit features keynote addresses from both policy makers and providers including national hospital and physician thought leaders with real-life implementation experience. Given the growth in complexity of bundles this year's Summit will focus on deeper break-through strategies to implement bundled payment arrangements with private and public sector payers as well as self-funded employers. In addition, focus will also include consumers and how to best engage them in bundled payment initiatives. Other topics include implementation case studies, data & analytics, risk arrangements, employer perspectives, and transparency.

This year's Summit is the event to attend if you are considering bundled payment or involved in its implementation.

LEARNING OBJECTIVES:

- Identify the challenges associated with statewide bundled payment implementations.
- Understand best practices for analyzing data and reporting outcomes of bundled payment initiatives.
- Examine and analyze various case studies of current implementations.
- Understand the importance of the role transparency plays in initiatives.
- Identify how to engage consumers in bundled payment initiatives.
- Examine benefits and challenges associated with bundled payments in accountable care.
- Understand alternative approaches for adjudicating bundled payments.
- Explain the current issues related to insurance benefit design and bundled payment that must be considered for accurate payments.
- Understand the importance of quality metrics for successful implementation of episode bundled payment.
- Describe examples of quality measurement, including the key quality measurement domains (i.e., clinical, patient experience, safety, and outcomes).
- Provide examples of quality metrics for certain episode payment bundles.
- Understand the existing incentives in the current fee-for-service environment that exist for surgeons and other providers.
- Clarify the new objectives that must be met to succeed in episode bundled payment (i.e., fewer complications, lower implant device costs, etc.).

WHO SHOULD ATTEND:

- Hospital CEOs and CFOs
- Medical Analytic Specialists
- Quality Improvement Executives
- Managed Care Executives
- Managed Care Contracting Experts
- Orthopedic Chiefs of Staff
- Surgeons
- Service Line Executives
- Health Plan Representatives
- Medical Directors
- Information Technology Vendors
- Health Policy Makers
- Academics
- Physicians and Physician Organizations
- Healthcare or Information Technology Media

THE FOLLOWING REGISTRATION TERMS AND CONDITIONS APPLY

REGARDING WEBCAST REGISTRATIONS

1. Individuals or groups may register for Webcast access. Organizations may register for group access without presenting specific registrant names. In such instances the registering organization will be presented a series of user names and passwords to distribute to participants.
2. Each registrant will receive a user name and password for access. Registrants will be able to change their user names and passwords and manage their accounts.
3. Webcast registrants will enjoy six (6) months access from date of issuance of user name and password.
4. Only one user (per user name and password) may view or access archived conference. It is not permissible to share user name and password with third parties. Should Webcast registrants choose to access post conference content via Flash Drive, this individual use limitation applies. It is not permissible to share alternative media with third parties.
5. User name and password use will be monitored to assure compliance.
6. Each Webcast registration is subject to a "bandwidth" or capacity use cap of 5 gb per user per month. When this capacity use cap is hit, the registration lapses. Said registration will be again made available at the start of the next month so long as the registration period has not lapsed and is subject to the same capacity cap.
7. For online registrants there will be no refunds for cancellations. Please call the Conference Office at 800-503-7414 or 206-452-5612 for further information.

REGARDING ONSITE REGISTRATION, CANCELLATIONS AND SUBSTITUTIONS

1. For onsite group registrations, full registration and credit card information is required for each registrant. List all members of groups registering concurrently on fax or scanned cover sheet.
2. For onsite registrants there will be no refunds for "no-shows" or for cancellations. You may send a substitute or switch to the online option. Please call the Conference Office at 800-503-7414 or 206-452-5612 for further information.
